

Semi Automatic Baking Machine - RS TT Series (Large Format) Cones, Cups or Rolls

Features

- Sharper Products
- Uniform color
- Crisp Design
- Deeper Checks Pattern

Rolled Sugar Cone

Sugar Cup

Waffle Cup

It can be equipped with 9 - 12 - 18 baking stations

Better by Design....

RSTT Series - Baking Ovens

RSTT - Series semi automatic machines produces rolled sugar cones, cups or rolls. It is equipped with 9, 12 & 18 baking stations. These machines are designed with latest technical standards for an economical results. These machines are clearly laid out and easily accessible. The bearings and lubricants used are of long life and the links between the baking plate are also maintenance free.

Baking Plates

The plates are made of special alloy. The selection of alloy and casting procedure ensures dimensional stability, a homogenous and dense surface, thermal stability, good heat accumulation characteristics and excellent thermal conductivity. Special finishing is done to ensure trouble free release of wafer sheets.

“Sugar Cup” Making Attachment

We developed new cup presses. Mechanically guided pressing tools lead to precisproduct results. The tools can also be changed very easily which shortens the change over time noticeably. Different products can be produced on one single cup press.

Tube Rolling Device Machine

Automatic Wafer Tube Rolling Station for best quality rolled wafer tubes. The Rolling machines can be designed to suit various diameter and length of wafer tube rolls. The rolls can be subsequently cut in smaller fingers based on clients product / packing or marketing needs. We can also provide a finger holling attachment for continuous production.

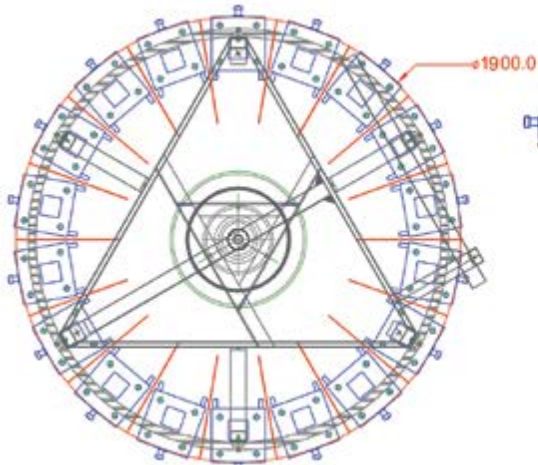

Punching Device

This device is pneumatically operated; feeding of sheet is manually done. The punched items discharge onto a tray below. It can be used for punching different shapes on “malleable” wafer sheets. It is customized to suit various requirements for clients.

RS-TT-107

Technical Details

Types of Oven	Size of Plate (apprx) <mm'mm>	Type of heating (Electrical)	Number of tongs/ multiple usage	Electrical load in KW	Production capacity <pcs/h>
90 Sec Cycle Time*					
RSTT- 9 Spl.	300 x 300	Elec	9	20+	360
RSTT- 12 Spl.	300 x 300	Elec	12	30+	480
RSTT- 18 Spl.	300 x 300	Elec	18	38+	720
