

ZWT-Series Automatic Wafer Baking Machine

Size Of Baking Plate 270X370

ECONOMICAL ✦ EFFICIENT ✦ LOW FUEL CONSUMPTION ✦ FLEXIBLE ✦ UPGRADABLE

“ZWT” Wafer Baking Machine

The Automatic wafer Baking Machine ZWT Series is designed for fully automatic production of wafer sheets with fine, medium or deep reeding as well as hollow wafer sheets. It may be equipped with 12, 18, 24,30,36,42 baking tongs.

Heating System

The automatic baking machine is equipped with high efficiency triangular burners that can be adjusted for an extremely even application of heat over the entire surface of the baking plates.

Heating (LPG / Natural Gas)

By Gas : The heating system has automatic ignition. In case of gas, air or power failure, an automatic cutout device on the heating system will operate.

Baking Plates

The plates are made of special alloy. The selection of alloy and the casting procedure ensures dimensional stability, a homogenous and dense surface, thermal stability, good heat accumulation characteristics and excellent thermal conductivity. Special finishing is done to ensure troublefree release of wafer sheets. The wafer thickness is quickly and easily adjusted by applying spacing shims.
